at [mathieu.sabourin@clientspectrum.com](mailto:mathieu.sabourin@clientspectrum.com) or by phone at +1 514 392-9822 extension 400.

## How the *Management Console* works

The *Client Spectrum Management Console* provides an easy to use Web interface that consolidates information stored between numerous Unica files and real time system processes.

It allows Unica users and system administrators to:

- Identify issues and to address them in one single interface
- Manage Unica Campaign user sessions and flowcharts
- Identify and kill large undesirable database queries related to a flowchart
- Compare and monitor flowcharts performance

## Who is Client Spectrum

Client Spectrum is a consulting firm specialized in delivering services related to the Unica suite of enterprise marketing solutions. The Client Spectrum team of consultants has delivered more than 40 000 consulting hours related to various Unica solutions since 2005.
